

Special Education Courses (SPECED, SPECFLD)

The expectations for graduate level Special Education enrollment is consistent with UW-Whitewater's guidelines and requires additional research, projects and a leadership role. In addition, enrollment in Special Education courses requires admission to professional education with the exception of SPECED 700 level courses.

SPECED 524

Foundations of Special Education 3 u

The purpose of this course is to help students explore issues and perspectives related to basic theories in special education. The course also examines the legal and ethical implications surrounding special education, and the historical developments within the field. This course will provide teacher education students with experiences that engage them in explicitly examining their conceptions, assumptions, and attitudes related to students with exceptional educational needs. Extensive consideration will be devoted to misconceptions about multicultural and bilingual aspects of special education as well as pedagogical approaches for including students with diverse learning styles and abilities in general education environments.

Prereq: SPECED 205.

SPECED 560

Behavior Management for the Inclusive Classroom 3 u

The purpose of this course is to provide general strategies to promote effective behavior management in the inclusive educational environment. Focus will be on theories and practices for facilitating successful integration of children with disabilities in the regular education classroom or public school special education programs.

Prereq: Admission to Professional Education

SPECED 576

Medical Aspects Of Disability 3 u

Study of the medical, physiological, neurological, physical, developmental, and sensory characteristics of persons with physical or medical conditions which impact educational programming. Emphasis on the etiology and implications of genetic, prenatal and acquired causes of disabilities including cerebral palsy, genetic syndromes, medical fragility, technology dependency, AIDS, and prenatal drug exposure. Interdisciplinary approaches to services provided for persons with complex attendance needs are addressed.

Prereq: 6 credits of special education or consent of instructor and Restricted to Students with Professional Ed admission.

SPECED 580

Phase 3 Portfolio 2 u

This course assists teacher candidates to develop their phase 3 portfolio which includes a philosophical statement which addresses DPI's core values; three narratives in the areas of assessment, instruction, and communication and collaboration; and three to nine student-selected artifacts selected from course projects or related artifacts across the college and Department of Special Education, prior to their entrance into the Directed Teaching Block that provide evidence of the attainment of knowledge and skills related to WTS and CEC/NCATE standards.

Prereq: Admission to Professional Education

Coreq: SPECFLD 485/685, SPECED 440/640, SPECED 450/650 or SPECED 465/665.

SPECED 606

Career/Vocational Programming For Exceptional Educational Needs 3 u

Identification of specific strategies for overcoming attitudinal and technical barriers to vocational mainstreaming of special needs students. Content includes values clarification, vocational assessment, vocational IEP development, and elementary and secondary vocational models in delivering appropriate vocational services to EEN students. Content covers grades K-12.

Prereq: Admission to Professional Education

SPECED 607

Foundations of Autism Spectrum Disorder 3 u

The purpose of this course is to provide an in-depth graduate level introduction to the foundations of autism spectrum disorder. This course includes an overview of autism spectrum disorder, including discussion of diagnostic issues, philosophical issues, research on the biological and psychosocial bases of the disorders, as well as an overview of intervention techniques and legal issues. The basic principles of behavioral analysis are covered.

Prereq: SPECED 205 or permission from the instructor

SPECED 608

Methods for Teaching Children with Autism Spectrum Disorders 3 u

This course provides students with methods of instructing children with autism spectrum disorders. The focus will be on developing functional skills based upon individual children's needs. Methods of instruction will include applied behavior analysis, sensory integration, TEACCH, and functional and ecological assessment procedures.

Prereq: (SPECED 205 AND SPECED 407/607) or permission from the instructor.

SPECED 609

Nonviolent Crisis Intervention 1 u

This course provides participants with certification or recertification in Nonviolent Crisis Intervention as recognized by the Crisis Prevention Institute (CPI). Techniques for de-escalating potentially harmful situations as well as strategies for responding to direct physical threats will be presented. The instructor is certified by CPI to provide training. Participants passing the exit exam will receive a one-year certificate in non-violent crisis intervention. Participants are asked to wear comfortable clothing suitable for physical

activity and avoid wearing jewelry during the course. Students must purchase a workbook from the instructor the first day of class to participate. Students registering for this course that are not currently licensed teachers or enrolled in a teacher education program must complete an Admission to Professional Education for Non-Licensure form to enroll in this course.

SPECED 622

Curriculum Methods And Administrating EC:EEN Programs - 3 u

Exploration of early intervention services for young children with special needs, best practices for programming for 3-6 year olds with emphasis on curriculum and program implementation across developmental domains, methods of intervention for the whole child, and administering a multi-disciplinary program. Identification of management responsibilities to include coordination of staff and services, transition practices, and program accountability. Students are required to participate in supervised fieldwork activities.

At the end of the seminar, teacher candidates will present the portfolio to an interdisciplinary group of UW-W faculty and staff.

Prereq: Pass Praxis II examination; Have no grades lower than a "C" in licensure courses; 2.75 GPA or higher.

SPECED 682

Current Topics in Special Education Pre-Institute : 1 u

The Pre-Institute is designed with the practical needs of educators in mind and will provide participants a comprehensive examination of current literature and practices within their school districts related to the current topic designated in the course SPECED 483/683 Current Topics in Special Education: Institute. These topics will change on an annual basis and be determined by department faculty in consultation with a graduate advisory committee comprised of teachers, administrators, and alumni. Specifically, the Pre-Institute will focus on the identification of key elements needed to create a framework for strategic planning to improve programming practices within schools related to the Institute topic.

Coreq: SPECED 483/683.

SPECED 683

Current Topics in Special Education Institute: 1 u

The Institute is designed with the practical needs of educators in mind and will provide participants a comprehensive examination of current literature and practices related to critical issues facing the field of special education. Topics are selected on the basis of need, interest, or timeliness and will change each time the course is offered. Institutes will be offered in the summer session and conducted by international and national leaders with expertise on the topic. SPECED 482/682 Current Topics in Special Education: Pre-Institute (1 credit) and SPECED 484/684 Current Topics in Special Education: Post-Institute (1 credit) can be taken prior to and following each summer institute and provide a more in-depth examination of the topic.

SPECED 684

Current Topics in Special Education Post-Institute: 1 u

The Post-Institute is designed with the practical needs of educators in mind and will provide participants a comprehensive examination of current literature and practices within their school districts related to the current topic designated in the course SPECED 483/683 Current Topics in Special Education: Institute. These topics will change on an annual basis and be determined by department faculty in consultation with a graduate advisory committee comprised of teachers, administrators, and alumni. Specifically, the Post-Institute will focus on the identification of key elements needed to create a framework for strategic

planning to improve programming practices within schools related to the Institute topic.
Coreq: SPECED 483/683.

SPECED 686

Academic Intervention I 3 u

The course is about reading for students with problems and disabilities through the use of theories, models, and specific research-based programs in phonemic awareness, decoding, reading and comprehension. We will examine the processes and skills children and adolescents engage in to read and understand literature and content within the curriculum. Specifically the difficulties encountered by students with language and learning differences will be reviewed and research providing “best practices” in teaching phonemic awareness, reading, decoding, and comprehension as a tool for literacy development will be emphasized. Students will develop personal philosophies and review and implement instructional strategies for teaching the development and fluency aspects of phonemic awareness, reading, decoding, and comprehension within the special and regular curriculum.

Prereq: Admission to Professional Education.

SPECED 687

Academic Intervention II 3 u

The course is about writers and writing. We will examine the processes and skills children and adolescents engage in to compose a quality written product. Specifically the difficulties encountered by students with language and learning differences will be reviewed and research providing “best practices” in teaching writing as a tool for literacy development will be emphasized. Students will develop personal philosophies and instructional strategies for teaching the development and fluency aspects of composition.

Prereq: Admission to Professional Education.

The synthesis and summary of the findings will be disseminated via multiple formats, e.g. poster sessions, conference presentations, journal articles and the sharing of information at professional gatherings. The Action Research study will be a tool for producing artifacts that can be integrated into appropriate professional portfolios to enhance professional development, career mobility of qualification for NBPTS certification.

Prereq: SPECED 700, SPECED 701, SPECED 702, EDFOUND 740 or consent of department chairman.

SPECED 705

Professional Portfolio Development in Special Education 3 u

This course will prepare practicing teachers to develop professional portfolios. Students can select from three

types of portfolios—a Professional Development Portfolio, a Showcase Portfolio, or a portfolio that can be used as part of an application for National Board Certification. The Professional Development Portfolio will assist teachers in meeting the requirements for continuing licensure. A Showcase Portfolio will assist teachers who wish to move into another professional position. The National Board Portfolio is one of the major requirements in achieving National Board Certification. Students will acquire skills in developing and refining artifacts suitable for each type of portfolio. They will learn how to write reflective commentaries, to self-assess their work according to external standards, to acquire skills (e.g. videotaping lessons; developing web pages) that will assist them in producing high quality artifacts representing their best work. Students may take this class up to two times to complete their portfolio. Prereq: Students seeking the MSE in Special Education, will be expected to have completed the general core, the specialty core, and the professional development core classes. Others may be admitted with the consent of the instructor.

SPECED 706

Vocational Assessment Of Students With Special Needs 3 u

This course examines specific vocational assessment strategies using an ecological approach to in-school data collection. Assessment of occupational interests, aptitude, and learning styles in relationship to IEP development, placement within specific occupational clusters, and successful transition to post-secondary training and/or employment environments is presented. Prereq: SPECED 406/606.

SPECED 760

Foundations and Characteristics of CD/EBD/LD 3 u

This course addresses the characteristics of students with cognitive disabilities, learning disabilities, and emotional/behavioral disabilities. The purpose of this course is to provide an overview of the theoretical and historical issues related to three high incidence disabilities. Specific application of theory and history will be applied to all three areas looking at characteristics across the life span. Inter-relationships of the characteristics, needs and implication for practice will be explored. Eligibility and models of service delivery will also be examined. Students who are not currently teaching will have to fulfill independent field experience expectations.

Prereq: SPECED 556 or SPECED 564 or SPECED 606 or Consent of instructor.

SPECED 761

Instructional Strategies for the Inclusive Classroom 3 u

This course is designed to help prospective education teachers learn to work effectively with students with mild disabilities. Instructional principles and strategies to provide quality instruction to help students become successful learners will be emphasized. Content emphasis includes models of instruction, and methods for delivery of instruction including lesson planning and unit planning. Students who are not currently teaching will have to fulfill independent field experience expectations.

SPECED 766

Professional Collaborations: Families and Community Agencies 3 u

The purpose of this course is to provide students with theory, general principles, and procedures for fostering collaborative partnerships among families, professionals, students, and other stakeholders that lead to outcomes of individual and mutual empowerment. Students will gain knowledge of interpersonal and collaborative skills that support partnerships between parents and school/ community professionals, as well as between school professionals and other community service providers. Information concerning national, state, and local resources for families of children with disabilities will be provided and integrated into class activities. Students who are not currently teaching will have to fulfill independent field experience expectations.

SPECED 781

School-to-Work Transitional Programming 3 u

This course will examine direct and indirect instructional support strategies which facilitate successful vocational programming of individuals with exceptional educational needs within secondary and post-secondary environments. The Designated Vocational Instructor model and transition methods are emphasized.

Prereq: SPECED 556 or SPECED 564 or SPECED 606 or Consent of instructor.
